

Storage water heaters

Rebates for your home

Download the rebate application at nicorgasrebates.com/apply for eligibility requirements and program terms and conditions.

energySMART offerings and availability of funding are subject to change. To ensure eligibility, please use the most current qualifying products list available at <http://nicorgasrebates.com/your-home/rebates-for-home>

energySMART, a Nicor Gas program, is a multi-year program funded by Nicor Gas customers in compliance with Illinois law.

Many of the storage water heaters that qualify for the rebate require power venting. These water heaters rely on a fan to blow exhaust gas out. Please discuss the best option for your home with your contractor or retailer, as these power vented models require electricity and have specified venting requirements.
