+ Qualifying thermostat  
+ Energy Factor ≥ 0.67 storage water heater

\$500

Complete multiple upgrades at once and maximize your savings.

### Air sealing and insulation

#### Qualifying improvements

#### Rebates

Air sealing

\$0.40 per CFM50 reduction, up to \$400

Attic insulation

\$0.30 to \$0.50 per square foot, up to \$400

Duct sealing

\$300 per system

Wall insulation (exterior wall, foundation sidewall and knee wall.)  
Must include qualifying air sealing and attic insulation to be eligible for rebates.

\$0.50 per square foot, up to \$400

You must work with an approved contractor to get a rebate for these improvements.

\*AFUE = Annual Fuel Utilization Efficiency

## Simple steps to smart savings

No matter where you are in your energy efficiency journey, energySMART makes your path to savings easy.

### Follow three simple steps to receive your rebate:

#### 1. Find a contractor

- All products must be professionally installed (except for programmable or smart thermostats, which may be self-installed).
- Find approved contractors near you at [nicorgasrebates.com/findacontractor](http://nicorgasrebates.com/findacontractor)

#### 2. Install

- Confirm your new product qualifies at [nicorgasrebates.com/home](http://nicorgasrebates.com/home)
- Install qualifying products between June 1, 2016 and May 31, 2017.

#### 3. Start saving

- Apply for product rebates online or print and mail the application.
- Submit your application, including the contractor invoice, within 90 days of installation or by June 30, 2017, whichever comes first. You will receive your rebate check approximately six to eight weeks after your application has been reviewed and approved.

### Instant discounts

#### Start saving right away

An instant discount is an alternative to receiving a rebate check. Instead of applying for the rebate and receiving a check, your contractor will deduct the rebate from the invoice at the time of installation.

- Air sealing and insulation improvement rebates are only available as an instant discount. Your contractor will apply the rebate directly to your invoice.
- Ask your contractor about instant discounts for other products.

### Multi-family

#### Do you own a multi-family property?

Multi-family properties may be eligible for rebates too! Call **877.886.4239** today to discuss your eligibility with a representative.

### Loans

#### Receive a loan to help with new energy efficiency projects

Financing is available to eligible Nicor Gas customers to help cover the cost of energy-efficient equipment and improvements. Installments on the loan are conveniently applied to your monthly Nicor Gas bill. Visit [nicorgasrebates.com/loans](http://nicorgasrebates.com/loans) to learn more.
